SUMMARY

I am a detail-driven individual with a passion for learning, particularly in programming languages like Python, and Django. I apply the same mindset to learning and problem-solving as I do in sports—discipline, perseverance, and continuous improvement. I enjoy breaking down complex problems into manageable parts, analyzing them, and finding creative solutions. This approach keeps me focused, motivated, and committed to continuous learning

EDUCATION

Andhra Engineering College   Completed , 80%
B.Tech in Artificial Intelligence & Machine Learning   *2021 – 2025*

Nethaji Junior College   Completed , 92%
Intermediate in MPC   *2019 – 2021*

Vikas High School   Completed , 92%
SSC   *2018 – 2019*

EXPERIENCE AND CERTIFICATION

Internships
• Prodigy InfoTech - Internship in Web Development
• Edunet IBM SkillsBuild - Internship in AI & ML

Certifications
• Python Certification
• Artificial Intelligence Certification
• Machine Learning Certification

PROJECTS

E-Commerce UI Clone
Developed using React.js & Bootstrap

- Designed and built the front-end for an e-commerce platform.
- Implemented key features like product catalog, shopping cart, search, and responsive UI.
- Used React Context API for state management, ensuring efficient performance.

SKILLS

- Languages: Python, Django, HTML, CSS, React.js, Node.js, Java Script, Bootstrap, SQL
- Platforms: VS Code, PyCharm, Jupyter Notebook
- Soft Skills: Communication, Time Management, Adaptability, Teamwork, Creativity, Flexibility

INTERESTS

• Shuttle • Cricket • Carroms • Chess • Solving Rubik's Cube
